Gould Alloys
The Leading Edge In Metals

For the Aerospace and Defence Industries
A member of Aero Metals Alliance
One of the fastest growing specialist metals stockholders in the country, Gould Alloys supplies the ferrous and non-ferrous metal requirements of leading-edge industries. It does so in cost-effective form through innovation in processing and logistics.

The recent move to purpose-built premises has given the company the space to give customers a wider choice of services and more possibilities for cost-saving through the provision of near net-shape components.

We now carry an even more extensive stock in both aerospace and commercial specifications/alloys which includes: alloy steels; stainless steel; aluminium; nickel alloys; titanium; and phosphur bronze.

The company operates a Quality Management System compliant with the requirements of ISO9001/AS9100/AS9120 approvals from major aerospace manufacturers.

All material can be delivered on a DLF, KANBAN, Consignment or JIT basis, with customer demand and inventory management a core capability.

If you require the list of our approvals, please contact us or visit: gouldalloys.co.uk

Our new facility is in Markham Lane, Markham Vale, Chesterfield, Derbyshire S44 5HS

T: +44 (0)1246 263300  E: sales@gouldalloys.co.uk
The company supplies cut-to-size, chamfered, machined, profiled and waterjet-cut material via a local, national and international service.

- **We carry a wide range of flat bar**
  - We also produce non-standard sizes by cutting round bar utilising unique processing methods.

### Sourcing material through a global network of suppliers

- **Traditional saw and guillotine cutting**
  - Bar, sheet, plate

- **Specialised cutting**
  - Blocking: cutting unique and/or low volume flat bar from round bar
  - Water jet: producing intricate shapes, providing near net shapes and maximising material utilisation

- **Machining**
  - Milling: vertical, horizontal
  - Traditional lathe
  - Drilling
  - Boring
  - Chamfering

- **Material marking, identification**
  - Hard metal stamping
  - Bar coded labels

- **Packing**
  - Customer specific
  - Kitting
  - Export

- **Miscellaneous**
  - Free issue cutting of customer material
  - Heat treatment: managing the subcontract process of specialised heat treatment
  - Peeling and grinding of round bar
