

AMA Environmental Policy (Europe)

AMA Europe is committed to environmental sustainability, with the support of our internal and external stakeholders. As a leading metal stockist, in the aerospace industry, we recognise our responsibility to protect the environment, comply with all relevant regulations, and continuously improve our environmental performance in alignment with ISO 14001.

Our environmental policy is to:

- Adhere to all applicable environmental laws, regulations, and ISO 14001 standard
- Prevent pollution, reduce waste and minimise the consumption of resources.
- Encourage environmental protection among suppliers and subcontractors.
- Reduce greenhouse gas emissions from transport and operations.
- Increase employee's appreciation of their environmental responsibilities.
- Incorporating environmental considerations into day-to-day operational procedures.
- Increase the use of recyclable and renewable material

Top management is dedicated to ensuring the successful implementation and continuous improvement of our Environmental Management System (EMS).

We will achieve this by:

- Provide the necessary resources to maintain our ISO14001.
- Educate and train employees on the environmental policy and objectives.
- Encourage staff to actively contribute to environmental initiatives and sustainability improvements.
- Ensure environmental considerations are integrated into business decision-making and daily activities.
- Set measurable environmental targets and monitor progress.
- Lead by example in adhering to and promoting environmental best practices.
- Take accountability to ensure the effectiveness of the Environmental Management System
- Conduct regular audits and reviews to ensure compliance and identify areas for improvement

A blue ink handwritten signature, appearing to read 'Arnaud Tronche', is written over a horizontal dotted line.
